

Announcing: Lean Healthcare & Six Sigma Certification

Improve patient care, reduce manufacturing cost, eliminate scrap in your process, and reduce processing times.

Southern University Division of Continuing Education announces a new "Lean Healthcare and Six Sigma certification" program!

This program teaches healthcare professionals, quality directors, banking professionals and engineers how to improve and sustain gains in quality and patient care, while empowering employees and retaining talent.

The methods are known as Lean Healthcare and Six Sigma

The healthcare professional will learn about:

- Reducing repetitive actions
- Eliminating unnecessary tasks
- Reducing cycle times
- Creating a visual workplace

The quality professional, engineer and banking professional will learn about:

- Reducing cycle time of processing
- Eliminating manufacturing scrap
- Reducing work in process

Sept. 24, 2009 ★ 12 noon - 3:00 pm

The Sheraton Baton Rouge Hotel
102 France Street, Baton Rouge, LA 70802
